**PUBLIC DEBT OF THE UNITED STATES FROM 1791 TO 1836, EMBRACING THE ISSUE AND REDEMPTION OF THE BONDED INDEBTEDNESS OF THE UNITED STATES FOR THE PAYMENT OF THE REVOLUTIONARY DEBT (FOREIGN AND DOMESTIC), MISSISSIPPI STOCK, LOUISIANA PURCHASE, UNITED STATES BANK STOCK, AND SIX PER CENT. NAVY STOCK.**

[For detailed statements of the principal of the debt, see "Statement of the Public Debt," issued by the Register's Office, as Treasury Department Executive Document No. 818, pages 55-70. The public debt, as stated in the table, page 146, Register's Report, 1885, for the 1791 *et sequitur*, is the unfunded amount of the indebtedness of the Government, and will therefore exhibit large discrepancies, year by year, with this table, which is the funded amount issued and paid of the obligations of the Government. Both statements, however, arrive at the same result in 1836, viz, \$272,793.02, being the amount of the debt then outstanding.]

## REPORT OF THE SUPERVISING SPECIAL AGENT.

TREASURY DEPARTMENT,  
OFFICE OF THE SECRETARY,  
*Washington, D. C., November 26, 1887.*

SIR: I have the honor to submit the following report of the operations of the division of special agents for the fiscal year ended June 30, 1887:

### *Money paid into the Treasury.*

|                                                   |                   |
|---------------------------------------------------|-------------------|
| On account of seizures .....                      | \$24,230.28       |
| Fines and penalties .....                         | 21,250.05         |
| Duties .....                                      | 409,284.80        |
| Total .....                                       | <u>454,765.13</u> |
| Number of suits commenced .....                   | 31                |
| Amount involved .....                             | \$51,919.03       |
| Number of seizures .....                          | 276               |
| Appraised value of seizures .....                 | \$115,261.56      |
| Duties on seizures .....                          | \$18,275.57       |
| Reduction in expenses recommended .....           | \$51,919.03       |
| Number of arrests and criminal prosecutions ..... | 18                |
| Customs districts inspected .....                 | 98                |

There were 4,328 reports made to the Department and to local customs officers by the agents and other officers directed by this division. These reports relate to undervaluation, smuggling, misconduct of customs officers, seizures, inspection of customs districts, arrests for violations of the revenue laws, suits, and various other pertinent subjects.

One of the duties of the special agents is the inspection of the business of the several customs ports and districts. This includes a minute and thorough examination of the books and accounts of collectors, the manner in which the customs business is conducted, and the character and qualifications of officers and employes, their compensation, and the necessity for their employment. The importance of these inspections made by a corps of capable and efficient officers, free from local influences and responsible directly to the Secretary of the Treasury, can not be overestimated. They tend to secure uniform and correct methods of business, to check extravagance in expenditures, and to relieve the service of incompetent or unnecessary officials.

The reports of these examinations made during the past year show continued improvement in administration and a steady tendency toward practical business methods in the custom-houses generally.

In addition to their regular duties under the immediate direction of the Department, the special agents stationed at New York have aided

the collector and appraiser at that port in making investigations at their request, reporting directly to them. These investigations involved a vast amount of delicate, difficult, and important work.

#### UNDERVALUATIONS.

A constant subject of inquiry and investigation by the officers of this division in their respective districts is the undervaluation of imported merchandise subject to ad valorem duties. Notwithstanding the fact that there has been increased vigilance on the part of the officers at the ports generally, and especially at the principal ports, there appears very little if any decrease in the efforts of foreign shippers to evade lawful duties upon all classes of goods subject to high ad valorem rates.

There is little doubt that the opportunities for evasion afforded by our high ad valorem duties on many articles tends to induce large speculative importations, and thus to swell the revenue from customs to the detriment of legitimate trade and competing domestic production.

The increase of importations during the last year is probably also due in some measure to the legislation of 1883 as construed by the courts with respect to coverings, which has afforded a convenient means of evasion.

The extent and regularity of the practice of undervaluation are illustrated by reports of special investigations during the year by the agents at New York, at the request of the collector, of the importations of certain firms at that port engaged chiefly in the sale of merchandise consigned to the United States on foreign account. It appears that the foreign shipper pursues a regular system in making his invoices. The invoice prices are generally arbitrary, do not represent the true market value of the goods, and are made as low as may be deemed consistent with safety. It is expected of the American consignee that he will be informed as to what would be the probable value at which the goods would be appraised and a sufficient addition is made by him on entry to meet an anticipated advance by the appraiser. If, in the judgment of the consignee, the appraiser would probably advance an invoice 20 per cent., an addition of 10 to 12 per cent. is made on entry, so that the appraiser's advance may not reach 10 per cent. over entered value. It becomes necessary for firms doing this class of business to keep a watch over the proceedings at the appraiser's office and of reappraisement boards to guard against advances of 10 per cent. or over, involving penal duties, such advances being really the only risk incurred by foreign shippers when they undervalue their invoices, and these are to a great extent avoided by the skillful management of the American agent.

This practice is illustrated by the transactions of two firms, who entered 2,055 invoices of consigned goods during a period of twelve months. They made additions on entry ranging from less than 5 per cent. to 100 per cent. upon 1,360 of these invoices, and the appraiser advanced 1,190 of them, his advances ranging from less than 5 per cent. to 60 per cent. Of these advances only 136 were appealed from, 127 of them being in cases where the appraiser's advances were more than 10 per cent. on the entered value, the object of the appeal being to avoid penal duties.

It should be here observed that firms which own the goods imported by them do not trouble themselves about the appraisement. They rest securely upon the integrity of their invoices when they represent the actual transaction. On the other hand the invoice of consigned goods as a rule, is a paper made up with assumed values, and is used only for

the purpose of entry at the custom-house. The real transaction is not exhibited to the customs officers.

At the port of New York during the past fiscal year there were 14,050 invoices upon which additions were made by importers, and 17,805 invoices were advanced by the appraiser. The amount of such advances upon the principal articles subject to ad valorem duties was \$2,658,306.06.

The silk experts employed by the Department at the consulates of Lyons, Zurich, Horgen, and Basle have reported during the past year additions amounting to \$633,415.91 to invoices of merchandise shipped from those consulates, as being necessary to equal cost of production.

#### NECESSITY FOR ADDITIONAL LEGISLATION.

The faulty construction of the present tariff laws, the inadequate means prescribed for reappraisements, and the restrictions upon prosecutions for forfeiture, imposed by the act of 1874, known as the "anti-moiety act," have made it impossible for the officers of the Government charged with the administration of the tariff to protect the revenue from fraud or the honest merchant from unfair competition.

So long as the Government is required to prove affirmatively in all legal proceedings the mental operations of a person engaged in defrauding the revenue, there can be no forfeiture of merchandise imported in fraud of the revenue, and in the absence of the power to secure such forfeiture the practice will continue and increase in spite of the faithful and intelligent work of customs officers.

The efforts of these officers are to a great extent neutralized by the results of reappraisements under the present system, which fails to answer the end sought to be obtained. The findings of reappraising boards are in many instances capricious and vary according to the opinions of the particular merchant appraiser who may be selected to act with the general appraiser. Injustice is liable to be done under the present system, both to the Government and to the importer, for the reason that the merchant appraiser is very likely to be engaged in the same system of undervaluation as the importer on whose invoices he is called on to act, or he may be a business rival and disposed to use his temporary official position to make inquisition into the business secrets of his competitor.

From any point of view the present system is objectionable, and instead of securing uniform and fair appraisements, as the law contemplates, its effect is to obstruct the efforts of the local appraisers to secure that object and it affords the means by which unscrupulous importers, combining together, are enabled to perpetuate a well-established system of defrauding the revenue.

I would respectfully suggest, as worthy of consideration among other measures which may effectively remedy the difficulties referred to, the reduction of present high ad valorem duties and the substitution of specific for ad valorem rates whenever practicable; the modification or repeal of the sixteenth section of the act of June 22, 1874; and the amendment of the laws relating to reappraisements so as to constitute the appellate boards solely of Government officials.

#### IMPORTATIONS UNDER CONSULAR SEALS.

The attention of this division has during the past year been directed to the introduction of merchandise under consular seals. A number of instances have arisen where goods from China and Japan have been

imported via Canada, and upon arrival at ports of destination such goods are entered upon invoices from China and Japan as importations from those countries.

It would seem from the language of Article 835 of the Regulations that the law and treaty regulations, applicable to importations under consular seal, were intended to apply to merchandise imported from Canada only, and for many years such importations were limited to Canadian merchandise, principally via the Grand Trunk Railroad to Portland, Me., for shipment to Europe. The question now arises whether the law contemplates the application of these regulations to Asiatic goods passing through Canadian territory en route to the United States. If such merchandise comes in under consular seal, should it not be treated as Canadian merchandise and entered as such?

However the law and regulations may be construed, it is manifest that they afford an easy means for wholesale smuggling, no matter how carefully they may be administered.

The consul is not required to make any examination of the goods, but only to seal the car containing them at the request of the owner or his agent, and to certify the manifest presented to him for that purpose. It may or may not contain a correct or honest account of the merchandise. If on arrival at the frontier port of entry into the United States the manifest is found to be correct in form and the seals on the car are intact, the customs officers are required to allow the car to proceed without scrutiny of the contents to its destination, where entry is made. If it is found that the merchandise specified in the manifest is missing, duties thereon are collected, and there are no means of ascertaining whether or not the manifest correctly described the contents of the car as laden. Even if the seals are found to be broken upon arrival of the car at its destination the customs officers accept the entry of the packages described in the manifest, and if these are found correct no further action is taken.

#### SMUGGLING.

The subject of the irregular introduction of opium into the United States has occupied the attention of officers of this division. It is understood that factories are established in British Columbia for the preparation of smoking opium with a view to its clandestine introduction into the United States, principally for consumption by Chinese on the Pacific coast. It is surmised that the drug is either sent eastward through Canada and smuggled into our territory at some point on the northern frontier or that it is concealed in packages of tea forwarded under consular seals. The special agents have been and are now active and vigilant in their efforts to suppress this traffic.

Investigations were made by the agents at New York, during the year commencing in April last, of alleged abuses in the importation of cigars as ships' stores by vessels belonging to the Havana lines of steamers. The manifests showed that about 300,000 cigars were brought in by these vessels during the year 1886 upon which no duty was paid. The greater part of them were noted on the manifests as belonging to the crews and undoubtedly were smuggled ashore while the vessels were in port. As soon as the attention of the collector was called to the subject, he, under the authority conferred by section 2796, Revised Statutes, assessed duties on all cigars found on board and manifested in excess of a reasonable supply to be allowed as ships' stores. Since the adoption of this course the quantity claimed as ships' stores is from 200 to 500 per vessel, instead of 2,000 to 8,000, as formerly.

## EXPENSE OF SPECIAL-AGENTS SERVICE.

The cost of maintaining the special-agents service for the past fiscal year was as follows :

|                       |             |
|-----------------------|-------------|
| Special agents .....  | \$77,792.85 |
| Inspectors .....      | 70,842.82   |
| Special employés..... | 13,540.45   |

Of the last amount, \$3,547.25 was for the compensation of silk experts at the consulates of Lyons, Horgen, Zurich, and Basle. In view of the successful results and small expense of the expert service, I have to suggest the advisability of extending it to other principal consular districts from whence merchandise subject to ad valorem duties is largely exported to the United States, particularly manufactures of wool and other textiles, metals, and earthenware.

The appended Table A shows the business transacted in each customs district, including receipts, expenses, and the value of exports.

Table B shows the number of packages, with the invoice value and estimated duties thereon, forwarded without appraisement during the last fiscal year from and to the ports specified in the act of June 10, 1880, and the acts amendatory thereof.

Attention is invited to Table C, which shows the value of and duties on merchandise forwarded from and to the designated ports during each fiscal year since the approval of the act of June 10, 1880.

Table D shows the actual quantities and classifications of sugars imported at the several ports during the last fiscal year.

Table E is a comparative statement showing the number of invoices examined and appraised, the number advanced and appealed from, the amount of advances, the cost of weighing, and other information of interest relating to the administration of the customs at New York, Philadelphia, and Boston during the fiscal years 1886 and 1887.

I am, very respectfully,

JAMES A. JEWELL,  
*Supervising Special Agent.*

Hon. CHARLES S. FAIRCHILD,  
*Secretary of the Treasury.*

## APPENDIX.

TABLE A.—STATEMENT SHOWING BUSINESS TRANSACTED IN EACH OF THE SEVERAL CUSTOMS COLLECTION DISTRICTS FOR THE FISCAL YEAR ENDED JUNE 30, 1887.

| Districts.                               | Vessels entered. |            | Vessels cleared. |            | Entries of mer-<br>chandise. | Vessels docu-<br>mented. | Duties and<br>tonnage tax. | Aggregate<br>receipts. | Value of exports. |              | Expenses.     | Average number<br>of persons em-<br>ployed. | Cost to collect \$1. |

| 1882..... | 222,559,104.83   | 6,549,595.07   | 2.94           |           |                  |                |

NOTE.—The accounts of receipts and expenditures published by the Register will vary in some cases from the figures above given, for the reason that his statement is made up from warrants issued during the fiscal year, regardless of balances in the hands of officers at the beginning and end of the year. If the accounts of each collector were closed and balances settled at the end of the fiscal year, the two statements would agree.

TABLE B.—MERCHANDISE TRANSPORTED WITHOUT APPRAISEMENT DURING THE FISCAL YEAR ENDED JUNE 30, 1887, UNDER ACT JUNE 10, 1880.
